Report on the Financial Statements

We have audited the accompanying financial statements of American Nicaraguan Foundation, Inc., which comprise the statements of financial position as of December 31, 2015 and 2014, and the related statements of activities and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Nicaraguan Foundation, Inc. as of December 31, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 – NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Nature of Business: American Nicaraguan Foundation, Inc. (the "Foundation") is a not-for-profit organization established in the state of Florida in 1992. The Foundation was established principally to support the neediest sectors in Nicaragua by forging strategic alliances with domestic and foreign sponsors to procure funds, quality goods and products, and deliver this aid and educational programs to the ultimate recipient in Nicaragua through social service organizations pre-qualified by the Foundation.

The Foundation operates a division in Nicaragua, "Asociación Nicaraguense de Fomento Social", for the purpose of serving as the local organization of the Foundation to raise funds and support the Foundation's activities within the country.

Basis of Reporting: The Foundation prepares its financial statements following principles generally accepted in the United States of America. In accordance with these principles for certain nonprofit organizations, expenses are allocated into functional categories based on the ultimate purpose of the expenditure.

In preparing its financial statements, the Foundation applied ASC No. 958, *Not for Profit Entities*, for the recording of donations received, contributions made and for its financial statement presentation. Accordingly, the accompanying financial statements present balances and transactions based on the existence or nonexistence of restrictions imposed by the donor. Consequently, the net assets of the Foundation and their changes are reported and classified as follows:

- *Unrestricted net assets* are free of donor-imposed restrictions and include the effects of revenues, expenses, gain and losses that are not changes in temporarily or permanently restricted net assets. The Foundation has a quasi-endowment fund which funds are functioning as an endowment that are typically established by the institution from institutional funds, and will be retained and invested rather than expended. As of December 31, 2015 and 2014, the Foundation has an outstanding quasi-endowment fund consisting of cash and cash equivalents, corporate bonds and mutual funds designated to benefit a community in South Florida. The period and purpose of this fund has not been designated by the Board of Directors.
- *Temporarily restricted net assets* are those assets which use has been temporarily restricted by donors. When a donor-imposed restriction expires, that is when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.
- *Permanently restricted net assets* are those assets which use has been permanently restricted by donors. As of December 31, 2015 and 2014, and during the years then ended, the Foundation had no permanently restricted net assets.

Cash and Cash Equivalents: Cash and cash equivalents include deposits in financial institutions of unrestricted cash. For the purposes of the statement of cash flows, the Foundation considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Foundation maintains bank accounts at various financial institutions in the United States and Nicaragua.

Interest-Bearing Deposits in Financial Institution: Interest-bearing deposits in financial institution mature within one year and are carried at cost.

Fair Value of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

NOTE 1 – NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions and other receivables: Unconditional promises to give that are expected to be collected within one year are recorded at their net realizable value. Unconditional promises to give that are expected to be collected in future years are initially recorded at the present value of their future cash flows as of the date of gift receipt and subsequently net of unamortized discounts and an allowance for uncollectible amounts. Amortization of the corresponding discount, when applicable is included in contribution revenue. Conditional promises to give are not included as support until the conditions are substantially met. The allowance for doubtful accounts is a valuation for probable incurred losses on donations. Receivables are charged against the allowance when management believes the uncollectibility of the receivable is confirmed.

Inventories: Inventories are comprised mainly of undistributed clothing, medical, educational and nutritional supplies, as well as inventories in transit and fundraising goods (Virtus I watches) used in fundraising activities. Inventories are stated at the lower of their estimated fair value or the fair value determined by the donor as of the date of donation, except for the Virtus I watches which are recorded at the lower of cost or estimated fair value.

Inventories of medical supplies that are subject to expiration dates on their use, as dictated by the manufacturer, are periodically monitored. Medical supplies that expire within two months of year-end are identified and considered obsolete, and a valuation reserve is established.

Securities: Securities are classified as trading and are recorded at fair value with changes in fair value included in the statements of activities and changes in net assets. Interest and dividends are included in cash contributions and other.

Property and Equipment: Property and equipment are stated at cost if purchased or at their estimated fair value if received in donation. Property and equipment with a purchase price before taxes of \$100 or more are depreciated using the straight line method over the estimated useful lives of the asset, which range from two to ten years. Leasehold improvements are amortized using the straight line method over the lesser of the lease term or the estimated useful lives of the asset.

Long-lived assets are evaluated for impairment on a yearly basis. No impairment losses on long-lived assets have been recognized in 2015 or 2014.

In-kind Contributions and Donations: The Foundation receives in-kind contributions and donations of medicine and medical supplies, clothing, educational supplies, nutritional supplies, shipping and handling and other items from individual donors, governments, and other organizations. These contributions are recognized by the Foundation as revenue based upon the fair value provided by the donor. The Foundation contributes these items to social service organizations, principally in Nicaragua, and records these contributions as program expenses, at the fair value originally provided by the donor.

Transactions in Foreign Currency: Transactions made in a currency other than the functional currency (US Dollar) are converted using the official rate in effect on the transaction date. As of the date of the financial statements, monetary assets and liabilities, which are expressed in a currency other than the functional currency, have been converted to US Dollars at the exchange rate in effect on the closing date. Non-monetary assets and liabilities are converted at their historical exchange rate. Differences arising from currency conversion are recorded as part of operating activities. Foreign currency losses for 2015 and 2014 were deemed to be immaterial.

For the years ended December 31, 2015 and 2014

NOTE 1 – NATURE OF BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates: To prepare financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided. Actual results could differ from these estimates. The inventory valuation and fair values of financial instruments are particularly subject to change

Severance Pay Accrued: The division in Nicaragua is subject to local labor legislation, which requires certain severance payments to its personnel upon termination regardless of cause. The statutory severance pay accrued is computed as follows: one month of salary for each year of employment during the first three years of employment and twenty days of salary for each subsequent year, with a minimum of one month and a maximum of five months' salary. As of December 31, 2015 and 2014, the Foundation had severance pay accrued totaling approximately \$150,542 and \$139,187, respectively, and is included in the accompanying statements of financial position.

Income Taxes: The Foundation has received determination of tax exempt status from the Internal Revenue Service under Code Section 501(c)(3) and, consequently, the earnings of the Foundation are not taxed and no provision for income taxes is included in the accompanying financial statements. The Foundation is also exempt from State taxes. There was no unrelated business income tax payable for the years ending December 31, 2015 and 2014. The Foundation has adopted ASC 958, *Not for Profit Entities*, which establishes a single model to address accounting for uncertainty in tax positions.

In Nicaragua, the Foundation and Asociación Nicaragüense Americana de Fomento Social are not-for-profit organizations exempt from income taxes in accordance with article (11), subparagraph (4) of the Equitable Tax Law.

Due to its tax-exempt status, the Foundation is not subject to U.S. federal income tax or state income tax. The Foundation does not expect the total amount of unrecognized tax benefits to significantly change in the next 12 months.

The Foundation is not subject to examination by U.S. taxing authorities for years prior to 2012. The Foundation is not subject to examination by Nicaraguan authorities for any year prior to 2010.

If the Foundation were to recognize interest and penalties related to unrecognized tax benefits, these would be recorded as interest and income tax expense, respectively. The Foundation has no amounts accrued for interest or penalties as of December 31, 2015 and 2014.

Subsequent Events: The Foundation has evaluated subsequent events for recognition and disclosure through May 16, 2016, which is the date the financial statements were available to be issued.

Reclassifications: Some items in the prior year financial statements were reclassified to conform to the current presentation. Reclassifications had no effect on prior year net assets and changes in net assets.

NOTE 2 – CONCENTRATIONS AND CREDIT RISK

For the years ended December 31, 2015 and 2014, approximately 54% and 51%, respectively of cash donations came from a single donor (a not-for-profit organization in the United States of America) and approximately 76% and 69% of total contributions received during 2015 and 2014, respectively were contributed by or through the same donor.

NOTES TO FINANCIAL STATEMENTS
For the years ended December 31, 2015 and 2014

NOTE 2 – CONCENTRATIONS AND CREDIT RISK (Continued)

Approximately \$779,000 of accounts receivable balance is due from a governmental body in Nicaragua.

The Foundation has several bank accounts and time deposits which exceed the insurance provided by the Federal Deposit Insurance Corporation (FDIC). It also has uninsured deposits in a financial institution in Nicaragua.

NOTE 3 – SECURITIES AND OTHER INVESTMENTS

Securities and other investments consisted of the following trading securities as of December 31:

	<u>2015</u>	<u>2014</u>
Common stock	\$ 2,381	\$ 1,915
Mutual funds	<u>452,193</u>	<u>479,742</u>
	<u>\$ 454,574</u>	<u>\$ 481,657</u>

During 2015, there were no maturities or donations. During 2015 and 2014, there were no purchases or sales of trading securities.

NOTE 4 – FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect the Foundation's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Cash and Cash Equivalents: The fair value of cash and cash equivalents re-price frequently and fully. Carrying amount approximates the estimated fair value and the Foundation has the ability to value these financial instruments based on active markets (Level 1).

Securities and Other Investments: The fair values of securities and other investments are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3).

NOTE 10 – COMMITMENTS

The Foundation has an operating land lease in Nicaragua. The Foundation built its warehouse and administrative offices on the leased land. On January 27, 2016 the Foundation renewed the land lease which expired on October 2015. The land lease calls for retroactive monthly lease payments of \$3,000 and expires in 2020. Furthermore, the lessor has recognized the investments made by the Foundation for a total of \$191,447 in the form of leasehold improvements. Under the amendment, \$95,724 in leasehold improvements is being deducted from total rental payments through maturity. Monthly rent payment after amortizing leasehold improvements is approximately \$1,750. Contributed rent expense under this agreement totaled approximately \$144,000 and \$143,000 for the years ended 2015 and 2014, respectively and is included as in-kind contributions in the statement of activities and changes in net assets.

The Nicaragua office lease calls for monthly lease payments of \$1,518 which expires on February 29, 2016. The Miami office lease calls for monthly lease payments of approximately \$3,200 which expire on August 2016.

Rent expense under these operating lease agreements are recognized as fund raising expenses and amounted to approximately \$70,434 and \$70,149 for the years ended 2015 and 2014, respectively.

Future estimated minimum rental cash payments under these operating leases are as follows:

	<u>Minimum Commitment</u>
2016	\$ 50,204
2017	20,992
2018	20,992
2019	20,992
